OSELAN®

Optimal Sea Elements and Nutriments

Hydration - recovery - rejuvenate - 100% water soluble

OSELAN®

Optimal Sea Elements and Nutriments

Low-sodium marine trace minerals
Immunity & cellular vitality
Active nutrition, performance & recovery
Bone, joint & dental health
Cardiovascular & cardiometabolic health

Source & sustainability: Extracted via eco-friendly processing from the French sea salt harvesting.

Composition: A natural, clean-label marine powder supplying 22 minerals and essential trace elements. Having a high content of magnesium and silicon, but uniquely low in sodium chloride.

Key benefits:
– Cell vitality: Replenishes essential cellular cofactors.
– Cardiometabolic health: High magnesium-to-sodium ratio supports healthy blood pressure and metabolic function.
– Bone support: Silicon works synergistically with minerals to promote collagen cross-linking and bone strength through the osteoblasts.

Application profile: 100% soluble, clean-label mineral concentrate suitable for electrolyte mixes, ready-to-drink, and functional foods.

Product composition

– 100% Mineral

Posology & usage

1g, once daily.

Quality & regulatory status

– Shelf life: 30 months.

– Solubility: 100% water soluble.

– Quality certifications: Halal, Kosher, Vegan, Non-GMO (NGPV in process), FSSC 22000, and ISO 50001.

– Country of origin: France.

– Sustainability: Harvested in a sustainable manner, in partnership with 1% for the Planet.
